

### COVID-19 Update 2/4/2022

Fortunately, COVID-19 cases reported by the state continue to decline with state positivity below 7%. There is continued marked improvement this past week with 36 reported cases compared to 47 the week before Connecticut Data. This means 99.79% of Brookfield's population is presumed healthy (without Covid infection).

Number of Weekly Brookfield COVID-19 Confirmed Cases (residents testing positive)			
Date Reported	# Town Residents*	Weekly Cases	% of Residents Affected
12/25/21	17,528	147	0.8%
01/01/22	17,528	266	1.5%
01/08/22	17,528	263	1.5%
01/15/22	17,528	169	0.96%
1/20/22	17,528	117	0.67%
1/28/22	17,528	47	0.27%
2/4/22	17,528	36	0.21%

\* 2020 census data

Our nurse, Tracey Cahill, monitors calls at (203) 775- 7314 for the disabled who request masks and/or test kits. N95 masks remain available to those who wish to receive them during operating hours at the Town Hall, Senior Center, Park & Recreation Department, Police Department and Brookfield Library.

Town Hall Covid-19 Booster/Vaccine clinic is open on Thursdays only, from 3 to 6 PM at the Town Hall (room 129 – 100 Pocono Road, Brookfield, CT). No appointment needed - walk-ins only. Must provide proof of primary vaccination series at vaccine clinic for Booster doses, and bring a photo ID). Please remember that proper hygiene (hand washing), a healthy diet, exercise, and plenty of fresh air are effective ways to keep healthy.

As you saw earlier, rain changed to sleet and freezing rain in much of our area. The winter weather advisory remains in effect as a flash freeze produced widespread black ice on the roads. The Connecticut Department of Emergency Services and Public Protection (DESPP) and The Division of Emergency Management and Homeland Security (DEMHS) will continue to monitor conditions around the state. Our local crews are diligently working through the night and will continue into Saturday as necessary. Please stay safe Brookfield.
